

# Bath Balls

## Who we are!

We are Coscoon and we are enthusiastic about do-it-yourself stuff. This is one of our DIY kits for natural cosmetics created with passion and love. Enjoy making your own natural cosmetics!

## Ingredients:

Sodium bicarbonate, citric acid, shea butter, milk powder, oil or flower mixture

## Accessories included:

Gloves

## Additionally required:

Bowl for mixing, pot and glass for water bath, spoon, clean cloth or kitchen paper

## Features:

6 x 40g

Done in approx. 35 min

Sufficient for 6 full baths

Prepare your workspace by thoroughly cleaning all utensils and surfaces. Please follow the instructions during the process. Use up all provided components during a single manufacturing process. By maintaining a hygienic working method, you ensure an optimal product!

## Step-by-Step Instructions (1/2)

1. Put on the gloves supplied before opening sodium bicarbonate and citric acid.
2. Mix all dry ingredients thoroughly in a bowl. Do not inhale any dust!
3. Melt the shea butter gently in a glass in a water bath.
4. When the butter is liquid, remove the glass from the water bath and wipe it dry. Avoid water dripping into the mix.
5. Let the butter cool down to hand temperature and stir in the essential oil mixture if included.
6. Mix everything carefully until the dough has the consistency of moist sand. Tip: Dough can also be coloured with food colouring.
7. Spread the dough over 6 equal portions and form into balls in your hand.

## Step-by-Step Instructions (2/2)

8. After processing, wipe off the accessories used with kitchen paper to remove coarse residue. This way the utensils can be easily cleaned in the dishwasher.
9. Let the bath balls harden in the freezer or covered in the refrigerator for about 12 hours.
10. Fill into a nice glass and close well. Or pack individually and label according to your wishes.

### **Attention:**

Even natural cosmetics can cause allergic reactions. Please test on a small skin area before using. Coscoon products are pure natural cosmetics. They can vary in colour and smell. For external use only. Do not use if you are allergic to any of the ingredients. Not suitable for children under the age of 3. Keep out of children's reach!

## Product Application

Use one bath ball per full bath. Fill the tub with pleasantly warm water (approx. 38 degrees). If the water is too hot or too cold, your body will not be able to find rest. After bathing, simply rinse your body with plain water, pat dry lightly and enjoy a smooth, silky sensation.

### **Shelf Life:**

If used in a hygienic manner and stored in a cool and dry place, the bath balls will not expire before 3 months after manufacturing. Colour and consistency may vary. As long as your product smells well, it is safe to use.

### **Further important to us:**

Our food-safe and fully recyclable raw material packaging is easy to clean and can be re-used as compact, securely sealable storage containers in the kitchen and on the go.

We manufacture our products in a climate neutral way. Which means that we identify the amount of CO<sub>2</sub> produced by our company and help reduce it by supporting climate protection projects.
