

Lip Balm

Who we are!

We are Coscoon and we are enthusiastic about do-it-yourself stuff. This is one of our DIY kits for natural cosmetics created with passion and love. Enjoy making your own natural cosmetics!

Ingredients:

Oil composition, beeswax, plant butter

Accessories included:

Tubes, spatula, beaker, gloves

Additionally required:

Pot for water bath, spoon, clean cloth or kitchen paper

Features:

4 x 7,5g

Done in approx. 40 min

Sufficient for approx. 6 months

Prepare your workspace by thoroughly cleaning all utensils and surfaces. Please follow the instructions during the process. Use up all provided components during a single manufacturing process. By maintaining a hygienic working method, you ensure an optimal product!

Step-by-Step Instructions (1/2)

1. Melt the wax completely in the beaker in a water bath.
2. Heat the oil composition slightly in the vial, shake well, add to the wax, melt and stir.
3. Remove the pot from the hob and add the vegetable butter to the beaker. Melt them with the residual heat in a water bath.
4. When all ingredients are dissolved, remove beaker from water bath. Wipe dry from below so that no water gets into the solution.
5. Now distribute the solution carefully and evenly into the lipstick tubes. Fill only to $\frac{3}{4}$ and put the beaker back into the pot to keep the mixture liquid.
6. Wait about five minutes until a small hole appears in the middle of the stick. Then fill up the tube completely, resulting in a smooth filling with a small cap.

Step-by-Step Instructions (2/2)

7. After finishing the products, quickly clean the used accessories with kitchen paper and remove any coarse residue. This allows the accessories to be easily cleaned in the dishwasher later on.
8. Allow the lip balms to harden for about two hours.
9. Date the labels and stick them on the tubes.

Attention:

Even natural cosmetics can cause allergic reactions. Please test on a small skin area before using. Coscoon products are pure natural cosmetics. They can vary in colour and smell. For external use only. Do not use if you are allergic to any of the ingredients. Not suitable for children under the age of 3. Keep out of children's reach!

Product Application

The LipBalm is suitable for all skin types. It is a beautiful and useful companion through everyday life. Make sure you do not make the use of it an unconscious habit, but rather use it to support your natural skin barrier. In winter in particular, the mineral oil free and non-water based care stick protects the sensitive skin of your lips and is invaluable on cold days!

Shelf Life:

If used in a hygienic manner and stored in a cool and dry place, the lip balm will not expire before 6 months after manufacturing. Colour and consistency may vary. As long as your product smells well, it is safe to use.

Further important to us:

Our food-safe and fully recyclable raw material packaging is easy to clean and can be re-used as compact, securely sealable storage containers in the kitchen and on the go.

We manufacture our products in a climate neutral way. Which means that we identify the amount of CO₂ produced by our company and help reduce it by supporting climate protection projects.
