# Capillum AMOVE

Body Shower Hair Removal  
for Him & Her

100 % natural

natural  
longer  
hair-free

Please read  
instructions carefully

## THE NATURAL WAY OF REMOVING HAIR

For centuries, a special mixture of different parts of plants and minerals has been traditionally used in the Near East for gentle hair removal. High-quality plant-based raw materials are the basis of this simple and non-irritating hair removal method.

- Painless & effective hair removal
- Good skin tolerance
- No razor bumps
- Also for intimate areas
- Without synthetic dyes
- Without fragrances and preservatives

### QUESTIONS & ANSWERS

**Why should Capillum AMOVE only be tested on a small area?**

Every human being, and therefore every skin and hair type, is different. We therefore recommend testing the product on a small patch of skin to best determine exposure time and tolerability.

**From which hair length does Capillum AMOVE work best?**

The best results are achieved with a length of about 3 - 5 mm; with shorter hair a peeling glove should be used when rinsing.

**Not all hairs were removed the first time. Is this normal?**

There are many different hair types. It may happen that not all hairs are removed the first time - this is often the case with short hair.

In this case, complete hair removal is usually achieved in the second application.

## Incredibly easy to use

- 1 Stir 100g Capillum AMOVE powder with 35 - 40 ml of hot water with the supplied spatula to a spreadable cream. The intense, earthy smell is normal because no chemical fragrances have been added.
- 2 Try first the effect only on a small skin area for the first application, to better assess exposure time and skin tolerance.
- 3 Apply the cream with the spatula or by hand all over the body parts you wish to remove hair from (please note use recommendations).
- 4 The body hair must be fully covered by the cream; otherwise the product is ineffective or only removes the hair partially.
- 5 Depending on hair density and strength, allow to take effect for 3 - 5 minutes, significantly less time in the intimate area. Check in between with a dampened finger on a small area whether the hair can be easily removed with the dried cream.
- 6 Rinse the cream off under the shower like a peeling, first with wet hands and circular movements, then with a little flowing water - the body hair will easily detach. In case of short body hair, a soft wash glove can help to thoroughly remove all hairs. Finally, shower off thoroughly.

## APPLICATION INSTRUCTIONS - PLEASE READ BEFORE USE!

Apply best in the bathroom, in the shower or bath. When you first use the product or remove hair from a new body part, perform a **skin test** by applying the cream on a small skin patch, according to instructions. If no skin irritation is experienced after two hours, you can proceed with hair removal. If burning/tingling sensations arise during application, rinse the cream off immediately with plenty of water. After hair removal, we recommend not using deodorants or perfumed products for 12 hours. At least 72 hours should pass between two applications. Remove jewellery in advance.

**Suitable** for the back, chest, arms, legs, underarms and intimate areas/bikini line.

**Not suitable** for head, face, eyes, nose, ears, nipples, moles, spotty, sore or irritated skin, sunburn or in case of previous allergic reactions to hair removal agents. If you take drugs that affect the skin or if you suffer from a skin disease, please ask your doctor before use.

### INGREDIENTS

Calcium Hydroxide, Zizyphus Spina Christi Leaf, crops powder without dyes.

### SAFETY PRECAUTIONS

Wash your hands immediately after application. Contains alkali. Do not swallow. If swallowed, seek medical attention immediately and show the package to the doctor. Avoid contact with eyes and mucous membranes. In case of contact with eyes, rinse immediately with plenty of water and seek medical attention. Do not keep in reach of children.

FOR SMOOTH, SILKY,  
HAIR-FREE SKIN.
